

THE PORTUGAL CLINICAL SCHOLARS RESEARCH TRAINING PROGRAM

The Portugal Clinical Scholars Research Training program is a two-year program designed to provide rigorous training in clinical research. It is a collaboration between Harvard Medical School & Fundação para a Ciência e a Tecnologia (FCT).

After completing this program, scholars will be able to:

- Develop detailed and feasible research questions
- Design appropriate studies and testable hypotheses for clinical questions
- Analyze, interpret and present clinical research data

APPLICATION DEADLINE: DECEMBER 10TH, 2018

Workshops are held in Lisbon, Porto and Coimbra

[HMS.HARVARD.EDU/PTCSRT](https://hms.harvard.edu/ptcsrt)

Who should apply?

Portuguese medical residents and fellows, ideally linked to Portuguese institutions

How much does the program cost?

It is fully supported by FCT and is tuition free for accepted applicants
